

## HOME

Welcome to FUE Clinics, the UK's foremost Hair Transplant and Hair Loss specialists with clinics nationwide.

We are very proud to be recognised as the **market-leader in the field of hair transplantation** – and we offer the latest in surgical techniques, both FUT (strip) and FUE.

Whatever your requirement, you can be assured we have the solution.

## ABOUT

### **About FUE Clinics Hair Transplant Group - Successfully Treating Hair Loss**

FUE Clinics is a group of private specialist clinics, registered with the Care Quality Commission, dedicated exclusively to **high quality, permanent natural hair restoration in both men and women.**

We were established in April 2008, to address a real gap in the services offered by existing hair transplant clinics at that time.

Six years ago, the vast majority of UK clinics only offered strip harvesting (FUT). This meant that potential customers had to search for organisations that carried out the increasingly popular FUE hair transplant surgery.

No one clinic could offer both, so there was frustration in the marketplace. Clearly, the demand for FUE was not being met.

So, FUE Clinics was born.

### **FUE Clinics - The UK market leader in hair transplantation techniques**

We have, in a relatively short time, become the market leader in hair transplantation techniques. That's down to two main reasons.

- 1. We are simply the best at what we do. Our service is extremely high quality and very professional**
- 2. We provide a highly personal service tailored to each individual's specific requirements.**

We recognise that every patient is different and requires a totally unique solution to their hair loss concerns. This very much reflects in the service we provide - and it has given us an enviable reputation in the industry.

Whereas other less qualified organisations offer a 'one solution fits all' approach, we are completely the opposite.

When you visit us for an initial consultation, we talk to you and discuss your hair loss situation.

We listen to your thoughts and wishes - and then recommend what we believe to be the very best solution to address your concerns - **to give you back the head of hair you so desire.**

### **A growing national presence of hair restoration clinics in the UK**

In a short space of time, we have grown enormously and now have **10 clinics in the UK**, more than any other organisation in this growing industry sector.

This national coverage of clinics makes it so convenient for you, as there is likely to be one of our clinics close to you.

We believe our growth and popularity, underlines and endorses the personal service we offer and **the enormous attention to each individual's needs and concerns**. Our Clinical Director and Founder, Jeremy Isherwood is responsible for this.

He has instilled in all of us, the essential importance of giving each patient total satisfaction. We simply don't have unhappy customers.

When you read our visitors book - where patients rate their satisfaction with our first class experience - you will hear why. Our customers are extremely happy with what we have done for them.

Some even say we have changed their lives...

### **Our professional approach to hair transplants is unrivalled in the UK**

However effective and popular we are, we don't rest on our laurels. We continually seek an ever-higher-level of performance. **We have set the standard for hair loss treatment in the UK**, but we are committed to get even better.

Jeremy is driven in his constant pursuit of excellence. We continually embrace and develop new technology, surgical techniques and hair treatment solutions that will benefit our patients and keep our outstanding CQC inspection reports at the highest possible level.

As you will recognise when you visit us, **hair restoration is our passion**.

It is not a business to us, it is a vocation. We are totally dedicated to maintaining our market-leading position - and we do this through top-class training and detailed research.

This sees us introducing new and improved methods to our hair restoration team, so people like you can benefit greatly from **the very latest, proven techniques and advancements in hair transplant surgery**.

**We employ the very finest consultants and medical specialists  
- giving you the hair restoration solution you so desire**

Our team of consultants are **medical and surgical specialists**. They are hand-picked for their commitment to excellence in hair restoration.

We only employ the best.

Our Hair Transplant Surgeons are selected for their exceptional artistic eye and unrivalled ability to design hair restoration. It is essential that any procedure compliments perfectly each patient's unique facial anatomy.

**We offer the latest in surgical techniques**, both FUT (strip) and FUE. Whatever is needed in your case, we have the solution. Our hair transplant equipment and surgical instruments are the finest money can buy.

All our specialist surgeons are registered to practice in the UK. They are fully accredited by the GMC (General Medical Council) and FRCS qualified - identifying them as fellows of the Royal College of Surgeons.

These superb professionals are trained to **provide the very finest care** throughout the entire process from the first contact with you, through the consultation process and then through surgery.

This continues through any post-operative care and support that might be needed.

**With our experience in hair transplantation, we understand and recognise what you need.**

Hair is an integral feature of the way you look. Your hair crowns your face.

So, hair loss can not only be very worrying, it can affect your confidence and self-esteem. One of the main concerns of patients we see, is their concern that their hair loss is making them look older.

We recognise this - and acknowledge that it is something you will want to address and eliminate as soon as you can.

We can help you do that. **Our proven service in modern hair transplantation is second-to none in this country.** We will provide you with a convenient and permanent solution to any hair loss problem you might be encountering.

We are proud of our superb reputation. Seeing our delighted clients and reading their testimonials, makes it all worthwhile for us.

We will work with you to establish realistic goals and expectations and **tailor a personal hair restoration plan that will give you what you need.**

This means we will work within your budgets - and we will make you very happy by creating a **permanent, youthful, natural-looking surgical hair transplantation** that you will be delighted with.

The right hair transplant will change your life. There is no doubt about that.

Here at FUE Clinics, we have been changing people's lives for many years. And we continue to do this, every day.

Yes, with FUE Clinics, **you will enjoy a natural, amazing permanent result**. And, that result is guaranteed for life!
